Art Club

The Art Club, serving the University of Richmond, is committed to providing UR students with opportunities to learn about and experience art by gaining access to resources outside of the University. Students will develop art studio skills and knowledge applicable to the classroom and beyond. The Art Club will organize trips to museums, galleries, and workshops and will bring artists to the University to give lectures and workshops. In addition, Art Club members will serve underprivileged children in the Richmond area by exposing them to museums and galleries, and enabling them to explore their artistic interests and talents.

University of Richmond Film Society

The Film Society, serving the University of Richmond, is committed to providing technical and communicative resources for those students who share an interest in the production and creation of films. These objectives will be achieved by: (1) uniting those students interested in film, (2) utilizing University audio/visual equipment for film production, (3) providing technical experience and knowledge concerning the film-production process, and (4) providing for student interest in topics related to film study/creation.
