ADAC did not formally meet during the 2008-9 academic year. On November 25, 2008, a summary of one student’s relevant documentation was circulated among ADAC members for review.

This student had requested a course substitution for his COM 2 requirement. After Dr. Churchill reviewed his documentation, she denied that request, and determined that the most reasonable accommodation was to allow the student to take his remaining COM 2 second language courses on a Pass/Fail basis.

After individually reviewing the relevant documentation, the ADAC members voted in favor of Dr. Churchill’s original determination. Dr. Churchill communicated the ADAC decision to the student.

Dr. Churchill informed ADAC members on January 19, 2009 that this student stated that he planned to appeal the decision, and Dr. Churchill informed him of the appropriate appeal process, based on the policy posted on-line at:
