b. Faculty Athletic Committee

The Faculty Athletics Committee is comprised of five faculty members serving staggered 3-year terms and two ex-officio members. Both the Faculty Athletic Representative (a faculty member appointed annually by the University president in accordance with NCAA rules) and the Athletic Department's Assistant Director of Athletics/Academics serve as ex-officio members. The Committee on Committees nominates individual faculty to serve on the committee; members are elected by action of the University Faculty. The Committee's Chair is elected annually by its faculty members.

Charge: The Faculty Athletic Committee represents University faculty on the Athletic Council. The committee also presents to the Athletic Department faculty concerns related to the University’s athletic programs, reports to the faculty on matters brought before the Athletic Council, and recommends to the faculty and administration policies that will enhance the educational experiences of our student athletes. The committee serves Student-Athlete Academic Support Services in an advisory role and works with the Athletics Department to help ensure that student-athletes establish and maintain a proper balance among academic, athletic, and social commitments.

In short, the Faculty Athletic Committee provides information, advice, and faculty perspectives on all issues related to the educational experiences of student-athletes.
